

ANCHOR[®] AnchorResin 1589 Extender

TECHNICAL DATASHEET

Anchor Resin 1589 extender is a powder extender which can be added to the 1528 and 1530 resin mix to counteract the penetration of the adhesive through decorative veneers.

- Limits bleed through
- Simplifies processing

After thoroughly mixing the resin with the hardener, add the extender with a maximum ratio of 10%. Conducting trials is recommended to gauge the optimum percentage.

The pressing times are unchanged by the extender being added.

Available in:

Available in 3kg and 25kg packages
