Hesse COOL-PROTECT HI 6600-9343

Product description

COOL-PROTECT is a thixotropic 1K HYDRO Pigment filler with powerful filling properties and outstanding isolating characteristics relative to the contents of the wood. As an isolating primer under coloured finished, it reliably seals off the wood content and prevents bleeding into the colouring coat. It is also easy to apply on vertical surfaces and has good sanding properties. An ideal base for other HYDRO Pigment fillers or colour lacquers.

Areas of application

In the complete field of interior fittings for the living area on various types of wood: For furniture surfaces in the complete field of interior fittings: stairs, doors, ledges etc.

Disposal

Lacquer

According to the currently valid Waste Catalogue Ordinance, it is necessary to assign waste to a specific waste type according to its origin. It is therefore not possible to clearly define a waste code number.

packaging

Packaging that is completely empty should be recycled. However, packaging that contains residues of hazardous substances or is contaminated by these substances, as well as packaging that is not completely empty, must be disposed of properly and without risk in accordance with the regulations for the respective product.

General information about the company

Hesse Lignal takes responsibility for future generations and is actively committed to protecting people and the environment. The company demonstrates this not only by phasing out solvents for its own paint systems by 2030.

Hesse Lignal is committed to using all resources responsibly and as sparingly as possible in all areas, thus setting an example for the industry.

ISO certification

- Quality management ISO 9001
- Energy Management ISO 50001
- Environmental management ISO 14001
- Occupational health and safety management ISO 45001
